

Safe Working Practices			
Introduction			
On completion of this programme learners will be able to draft methods outlining how to perform a task with minimum risk to people, equipment, materials, environment, and processes as well as draft emergency preparedness and response plans relevant to work areas.		SAIOSH – 2 CPD Credits	
QCTO Aligned Knowledge Module /Topic	KM-01-KT07 KM-03-KT04	Certification	If competent a certificate will be issued.
Target group:	<ul style="list-style-type: none"> ➤ Management, Supervisors, Team Leaders ➤ SHE Officers ➤ SHEQ Committee Members, Chairperson ➤ Nominated and Appointed S Representatives ➤ Employees 	Entry Level Requirements:	Relevant work experience or an appropriate NQF level 4 qualification. (The technical work content is not covered in this programme). Learners need to acquire the required technical skills, knowledge and experience through gaining work experience or qualifications in related technical occupations. Each industry will prescribe the technical requirements relevant to that industry

Principles of safe working practices in and around the place of work

- Explain what is meant by a working practice using practical examples
- Explain the concept of habits and how good and bad habits can be established with specific reference to occupational health and safety situations
- Safety practices required for working environments.
- The health and safety practices relevant to the machinery, tools and equipment used in work environments.
- Explaining the specific safety practices required for the range of work activities relevant to a specific work area.

Explain the emergency preparedness and response relevant to work
